EKOPLAST LLC POLICY
in the field of quality, food safety of goods, labor protection and environment

Our activity is modern and efficient production and sale of safe and high-quality PET film products for food cooking!

Our mission is 100% customer satisfaction from convenient and fast cooking, using quality goods of our company.

Our goal is continuous development: expansion of sales markets and product range, long-term and mutually beneficial cooperation with partners, trust and choice of consumers, constant profitability, and leading position of Ekoplast LLC on the markets where our products are represented!

The integrated quality and food safety management system of Ekoplast LLC is certified for compliance with ISO 9001 standards and the FSSC 22000 certification scheme and is based on the following principles:

1. **The consumer determines the quality level.** We strive to ensure that our consumers are 100% satisfied with the quality, food safety of products and the level of service, as consumers are the main source of financial resources of Ekoplast LLC.

2. **The process approach is the basis for managing all processes in the company.** The company is focused on a process approach and each employee treats his colleague at the next stage as an internal customer.

3. **Leadership and personal responsibility for the result is the key to the success of the company.** The company bases its activities on leadership and staff involvement. The company's management initiates and supports its employees in their professional growth, takes care of the favorable environment in the company, necessary for the effective implementation of the tasks.

4. **Honesty, consistency and objectivity are the basis of relations with partners.** Ekoplast LLC builds cooperation with reliable suppliers of high-quality and safe raw materials on a mutually beneficial and long-term basis. Ekoplast LLC informs the society about the results of its activities through the company's website: www.ekoplast.ua

5. **Thriftiness, efficient resources use, reduction of losses and wastes are the basis for the preservation of all types of resources and environmental impact.** Ekoplast LLC takes its environmental impact responsibly through the rational use of resources, energy, and proper management of all wastes.

6. **Observance of human rights through safe and proper working conditions is the** main direction of labor protection implementation and corporate social responsibility of Ekoplast LLC.

7. **The principle of "Plan-Do-Check-Act"** is the basis for improving all business processes of the integrated quality and food safety management system of Ekoplast LLC, based on the analysis of processes, sub-processes, risk analysis (according to the context of the organization, HACCP, TACCP, VACCP), decision-making based only on analysis of information about the company's activities, the use of Kaizen and 5S methods to improve the processes.

Ekoplast LLC management is the guarantor of the implementation of this Policy.
This Policy defines the ground rules of Ekoplast LLC, is accessible to the public and is brought to the attention of all the employees and partners of the company.
